

# Design Technology Yr7

## Progress Indicator

No	Some	Good	Exceptional

Making

	Midpoint Grade	Criteria
M9		Adapt methods of manufacturing when situations change and solve technical problems. Be able to explain and justify why changes have been made from original ideas.
M7-8		Show excellent use of health and safety and work independently. Select specialist tools and justify the processes used on the product. Organise my work so that I can carry out processes accurately and consistently.
M5-6		Reviews work as it develops and modify approaches to solve technical problems. Shows some accuracy when using tools and equipment to cut and shape materials. Use technical language when describing tools and processes.
M3-4		Has considered the quality, finish and function of the product and showed some demonstration of each. Can join and combine different materials.
M1-2		Can identify some of the tools and processes used. Can work safely.

Midpoint grade comment

## Making Book Polishing

1. Have you read through and acted on feedback given?	
2. Have you looked through your TATs to see how to achieve the next track point?	
3. Have you finished any incomplete work?	
4. Have you corrected any spelling (sp) mistakes?	
5. Have you made sure your work is presented well and is neat/tidy?
