

Design Technology Yr8

Progress Indicator

No	Some	Good	Exceptional

Making

Midpoint Grade	Criteria
M9	<p>Make products that are reliable and robust and that fully meet the quality requirements given in the design proposal.</p> <p>Excellent evidence of quality control shown in finished outcome.</p>
M7-8	<p>Adapt methods of manufacturing when situations change and solve technical problems.</p> <p>Be able to explain and justify why changes have been made from original ideas.</p> <p>Can carry out processes accurately and consistently and use tools and materials with precision including CAD/CAM where appropriate.</p>
M5-6	<p>High level of making/finishing skills that are appropriate to the desired outcome with quality control present.</p> <p>Select specialist tools and justify using technical language the processes used on the product.</p> <p>Organise my work so that I can carry out processes accurately and consistently.</p>
M3-4	<p>Review work as it develops and modify approaches to solve technical problems.</p> <p>Shows some accuracy when using tools and equipment to cut and shape materials.</p>
M1-2	<p>Has considered the quality, finish and function of the product and showed some demonstration of each.</p> <p>Can join and combine different materials.</p>

Midpoint grade comment

Making Book Polishing

1. Have you read through and acted on feedback given?	
2. Have you looked through your TATs to see how to achieve the next track point?	
3. Have you finished any incomplete work?	
4. Have you corrected any spelling (sp) mistakes?	
5. Have you made sure your work is presented well and is neat/tidy?
