

### **Revision for assessment in KS3**

Students perform their work in Drama for the end of year assessment. They show their understanding of the skills and knowledge taught in each project. They will be given clear guidance of what skills and knowledge they are expected to show in their work and are given time to rehearse within lesson time.

They also have an end of year knowledge quiz on satchel one which assesses their understanding of the drama terms and vocabulary taught throughout the year.

Students should use the Knowledge organisers and the project booklets to revise before taking the knowledge quiz.
