

# Child safety on YouTube Kids

---

## What's the problem?

The [YouTube Kids](#) app automatically filters out most inappropriate content. But no automated system is perfect, so it may not catch everything.

Videos that look like they're child-friendly can include violent or disturbing content. They might be suggested videos, or appear in search results.

---

## 4 steps to take to help keep your child safe

If you don't already have YouTube Kids, it takes you through parental controls when you set it up. Make sure to set yourself up as a parent and then add child accounts, following the steps on YouTube. Set it up on [desktop](#) or download the app.

Once you're set up, follow the steps below.

### 1. Set parental controls to help protect your child from seeing inappropriate content

You can:

- Set content settings so your child only sees videos intended for certain ages (4 and under, 5 to 7, and 8 to 12), or so they only see videos you approve – you choose this during the setup process
- Turn search off so your child can only see recommended, curated videos under each category in the home screen and can't search for videos

To turn off search:

- Tap the 'Lock' icon in the bottom corner of any page
- Enter your custom passcode (or complete the multiplication problem)
- Select 'Settings', and select your child's profile and enter your parent account password
- Switch 'Allow searching' to off

### 2. Block videos or channels that you don't want your child to watch

From the home screen:

- Tap the 3 dots ('more') next to the video
- Tap 'Block this video'
- Enter the numbers on the screen, or your custom passcode

From the watch page:

- Tap the 3 dots ('more') at the top of the video
- Tap 'Block'
- Tap 'Block this video only' – or choose 'Block entire channel' to block the channel associated with the video
- Tap 'Block' again, then enter the numbers you see written on the screen, or your custom passcode

### 3. Report inappropriate content

- Tap the 3 dots ('more') in the upper corner of the video you want to report
- Tap 'Report'
- Select the reason for reporting the video (inappropriate visuals, inappropriate audio, or other)

Make sure your child knows how to do this too.

### 4. Set a timer to limit time on the app

- Tap the lock icon in the bottom corner of any page
- Enter the numbers that appear on your custom passcode
- Select 'Timer'
- Use the slider bar or the '-' and '+' icons to set a time limit
- Tap 'Start timer'

The app will then lock once the timer finishes.
